# WHY DO YOU NEED AN ANCHOR TEST?

Unless a contractor can prove their installers have had adequate training, and suitable supervision to ensure the correct tools have been used (such as an accurately calibrated torque wrench and the right setting tool), **an anchor test is required to demonstrate proof of installation\***, even if the anchors are ETA approved.

A CFA Approved Anchor Test carried out in accordance to **BS 8539** will give peace of mind with a **detailed report provided within 24hrs**, which clearly shows the allowable load and photos that display if the tested anchors passed or failed.

**EACH ANCHOR IS SERIAL NUMBERED AND INSTANTLY VISIBLE WITH A PASS OR FAIL LABEL**

On the posters scannable QR codes link to products and test results

## FIXING POSTERS

Once successfully tested, we can provide approved fixing posters for your project to help ensure only the correct anchors are used.

# WHY CHOOSE FIXMART?

- ✓ Complete peace of mind with a **CFA Approved Fixings Engineer & Approved Distributor**
- ✓ Most anchor brands & types covered
- ✓ Quick & efficient service, IPAF Certified
- ✓ **Easy to book**, with transparent pricing
- ✓ Full detailed report within 24 hours
- ✓ Photos taken of every fixing tested
- ✓ **Each anchor serial numbered & instantly visible with a pass or fail label**
- ✓ We can tackle specialist applications

We can also arrange Tool Box Talks for installers assist with installing anchors correctly.

# THE ANCHOR TEST PROCESS

## COMPLETE FORM

COMPLETE OUR ANCHOR TEST REQUEST FORM DETAILING YOUR REQUIREMENTS.

SCAN FOR THE REQUEST FORM

## QUOTE RAISED

WE WILL PREPARE A QUOTE FOR YOUR REVIEW & VERIFY THE DETAILS.

**SIMPLY SCAN THE CODE TO TAKE YOU TO THE REQUEST FORM**

## BOOK TEST

ONCE APPROVED WE WILL CONFIRM & BOOK YOUR ANCHOR TEST AT A TIME THAT WORKS BEST FOR YOU.

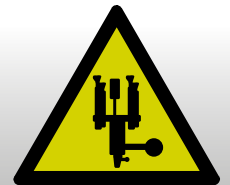

## TEST CONDUCTED

OUR CFA APPROVED ANCHOR TESTER WILL ATTEND SITE AT THE SCHEDULED TIME & DATE TO CONDUCT THE TEST.

## RESULTS

YOUR ANCHOR TEST REPORT, CERTIFICATE, & INVOICE WILL BE EMAILED WITHIN 24 HOURS.

Please note anchor testing only confirms the integrity of the anchor installation and not the system it's supporting.
