Curved Access Doors

Curved Access Doors suitable for low, medium and high-pressure applications. Made from pressed steel with a zinc coating (Z275), they have two tightening knobs and a one-piece closed cell high density gasket to ensure the tightest possible seal when fitted.

Each door comes complete with a cut out template, for speed and the correct hole size every time.

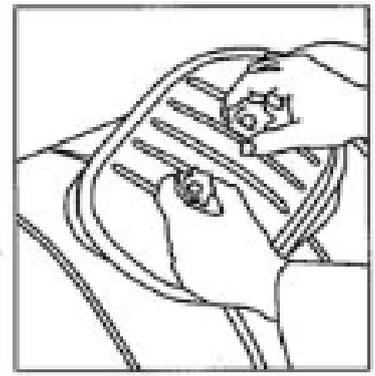

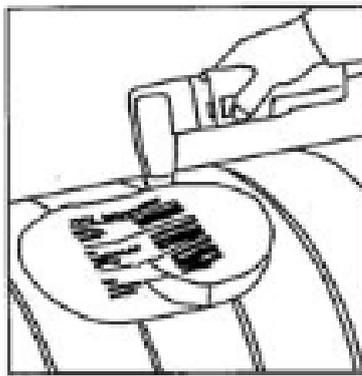

DF Circular Access Doors

DF Circular access doors come with two tightening knobs and are pressed from steel with a zinc coating Z275.

Each door comes complete with a cut out template, for speed and the correct hole size every time. If needed a quick release safety wire could also be supplied with each door to be riveted directly onto the spiral, to ensure the door doesn't get misplaced or even fall and cause an accident whilst the duct is being cleaned.

Technical data supplied by the manufacturer

Sizes

The circular access doors come in four sizes;

100x80mm 250x150mm 300x200mm 400x300mm
