Sliding Telescopic Brackets

Sliding Telescopic Brackets allow for the easy mounting of boxes, conduit and runs of pipes, requiring just a screw gun for installation. Available in two sizes 250mm-400mm and 400mm-600mm.

Their one piece, break-apart design is fully adjustable allowing for non-standard stud spacing, whilst an interlocking tab prevents accidental disassembly. Made from pre-galvanised steel, services can simply be attached to the brackets using low profile, self-tapping screws.

They eliminate the need to search for wood joists or to add other wooden supports, saving both time and space. The brackets are marked for easy fitting, with measurements and pilot holes for precise attachment.

Description

Finish:

Pre-Galvanised Steel

Technical data supplied by the manufacturer

Sizes Available:

250mm-400mm [10"-16"]

400mm-600mm [16"-24"]

Requires a Screw Gun for Installation.
