Studding BZP, 1M Length (Din 976-1 / 60° pitch)

Mild Steel Studding with a Bright Zinc Plated finish (BZP) conforms to DIN 976-1. Their 60° pitch denotes quality and a guaranteed core strength.

Available in sizes M5 to M24 and in 1m Lengths.

Studding can be used where the length required is longer than standard sized bolts.

Studding is also commonly referred to on construction sites by several different names such as Threaded Rod, All-Threads, Threaded Bar and Screw Rod. Their threading makes it easy to attach nuts and other fixings to the rod as required.

Technical data supplied by the manufacturer.
