Pozi Woodscrews - Countersunk

Countersunk Woodscrews are a general purpose screw suitable for multiple materials and various ironmongery, electrical and plumbing applications. Available in sizes 4 x 1/2" up to 12 x 4".

These screws have a Pozi head which when used with the correct tooling will not cam out, allowing greater torque to be applied. A Pozi screw is easily distinguished from the classic Phillips cross-head by extra lines embossed at 45 to the slots providing four additional points of contact for the driver.

Description

Available Sizes:

4 x 1/2" up to 12 x 4"
